# SANNI OPEYEMI

Ikorodu, Lagos. Nigeria | (234) 908-357-5587 | sanniopeyemiolayinka@gmail.com | https://github.com/sanni1244
FULL STACK DEVELOPER

## Education

**SECONDARY SCHOOL | 2014-2017 | YABA COLLEGE OF TECHNOLOGY SECONDARY SCHOOL**

**BACHELOR OF SCIENCE | 2018 - 2023 | LAGOS STATE UNIVERSITY**
· Major: Computer Science
· Minor: Computer and Software Engineering

## Skills & Abilities

**PROGRAMMING ABILITIES**
· HTML,
· CSS and CSS animations,
· Angular and React JavaScript,
· Server-side languages, PHP and Node JavaScript,
· Client-side technology jQuery,
· Version Control: Git,
· RDBMS: MySQL,
· Knowledge of frameworks like Bootstrap and Laravel.

**MANAGEMENT**
· Able to effectively plan and execute projects from start to finish.
· Experience leading a team in a collaborative and effective manner.
· Skilled at prioritizing tasks and meeting deadlines in a fast-paced environment.
· A proactive problem-solver, able to identify and address issues before they become major roadblocks.
· Experience with project estimation and resource planning to ensure projects are completed within budget and timeline.

**COMMUNICATION**
· Able to clearly articulate my thoughts and ideas to other developers.
· Can easily translate technical concepts to non-technical audience.
· Very friendly, generally open and easy to collaborate with.
· Great verbal communication skills. Fluent in English language, can speak and write it.

**LEADERSHIP**
· I have been selected to take on the role of team leader on multiple occasions, and have consistently demonstrated my ability to effectively guide and motivate my team members. One of my proudest achievements in this capacity was when I led my team through the final stages of a project, and we were ranked first for collaboration and first for the team with the most progress in terms of completion.

This success was a testament to my ability to bring out the best in my team and effectively manage the project from start to finish.

## Experience

**FRONTEND DEVELOPMENT (REACTJS) | HNG (INTERNSHIP) | AUGUST - NOVEMBER 2021**

- I learnt HTML, CSS and JavaScript.
- Full, extensive training on Git, using Node JavaScript and React.
- I am proud to have received a certification of completion for a highly competitive program, in which only 15% of the total number of participants who started were able to successfully complete all of the required coursework and assessments. This accomplishment speaks to my dedication and determination to succeed in this field, as well as my ability to rise to the challenges presented to me.

**DATABASE ANALYST AND DATA SCIENTIST | INFONOMICS NIGERIA | JANUARY - JULY 2022**

- I worked here as an IT student for 6 months.
- Database administration and website design.
- Running queries and ensuring that data was successfully stored in the database.
- Analyzing data and comparing data with other dates to ensure that they were in trend.
- Writing complex SQL scripts to support data analysis and reporting.
- Collaborating with database administrators to optimize database performance and scalability.
- Acquisition of business acumen and effective communication skills.
- Providing support to end users in accessing and utilizing data stored in the database.
- Extensive training in MongoDB and PL/SQL.
- Learning data visualization using Excel.

**OTHER WORKS AND FREELANCING | JANUARY 2022 - PRESENT**

- Developed and designed a fully responsive e-learning website for the university (LASU) as a project using HTML, CSS, JavaScript, PHP, MySQL and other tools and frameworks,
- Completed several freelancing jobs from Upwork.
- Projects and several works are available on GitHub repository https://github.com/sanni1244
